

## Quick Setup Guide – Homecast HT9200 receiver

Step 1 – Connect your digital receiver

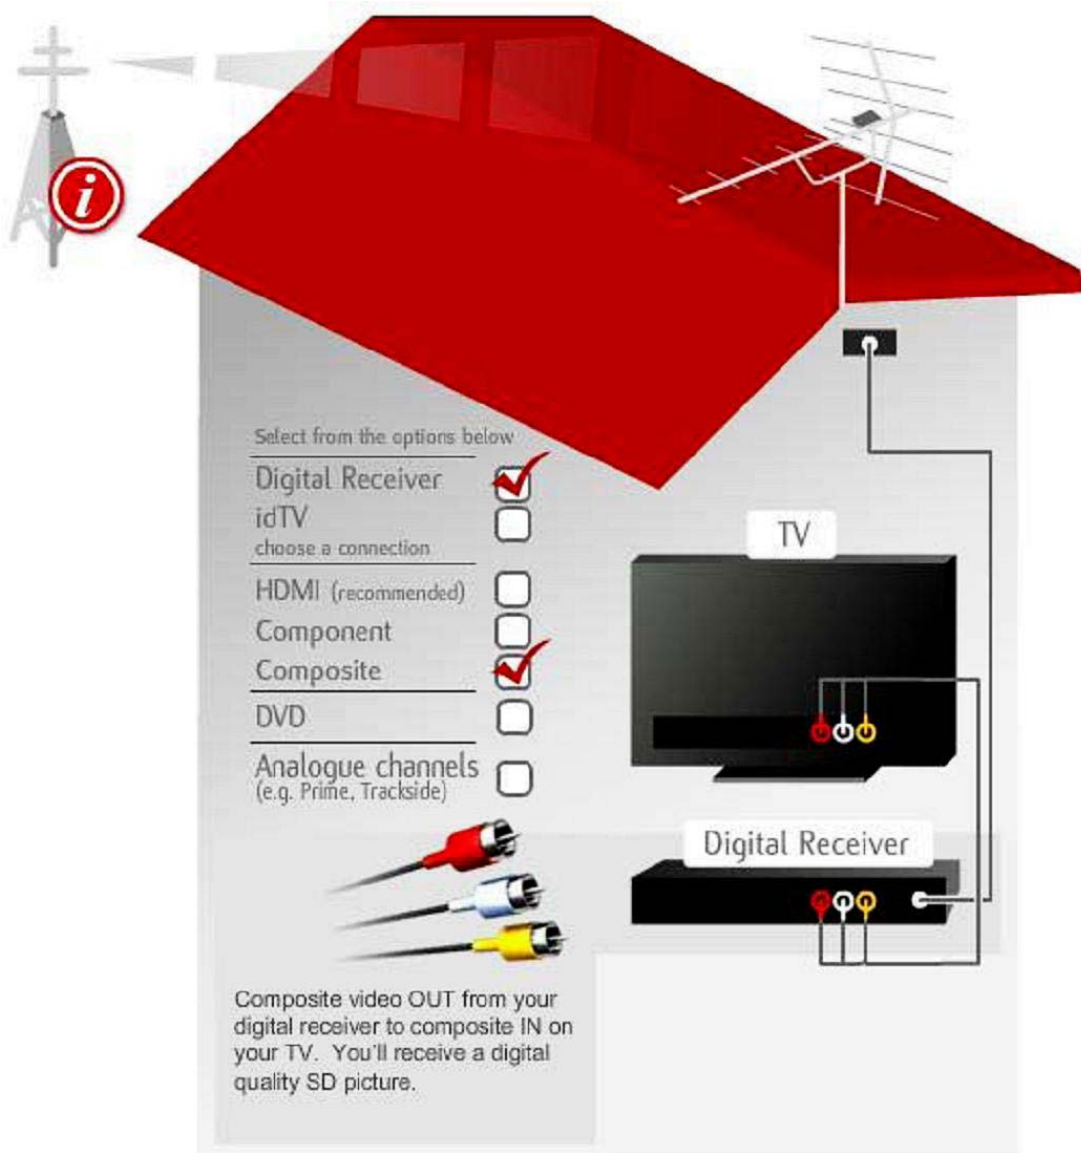

After unpacking your digital receiver, connect as shown in the diagram below.

### Option 1: HDMI

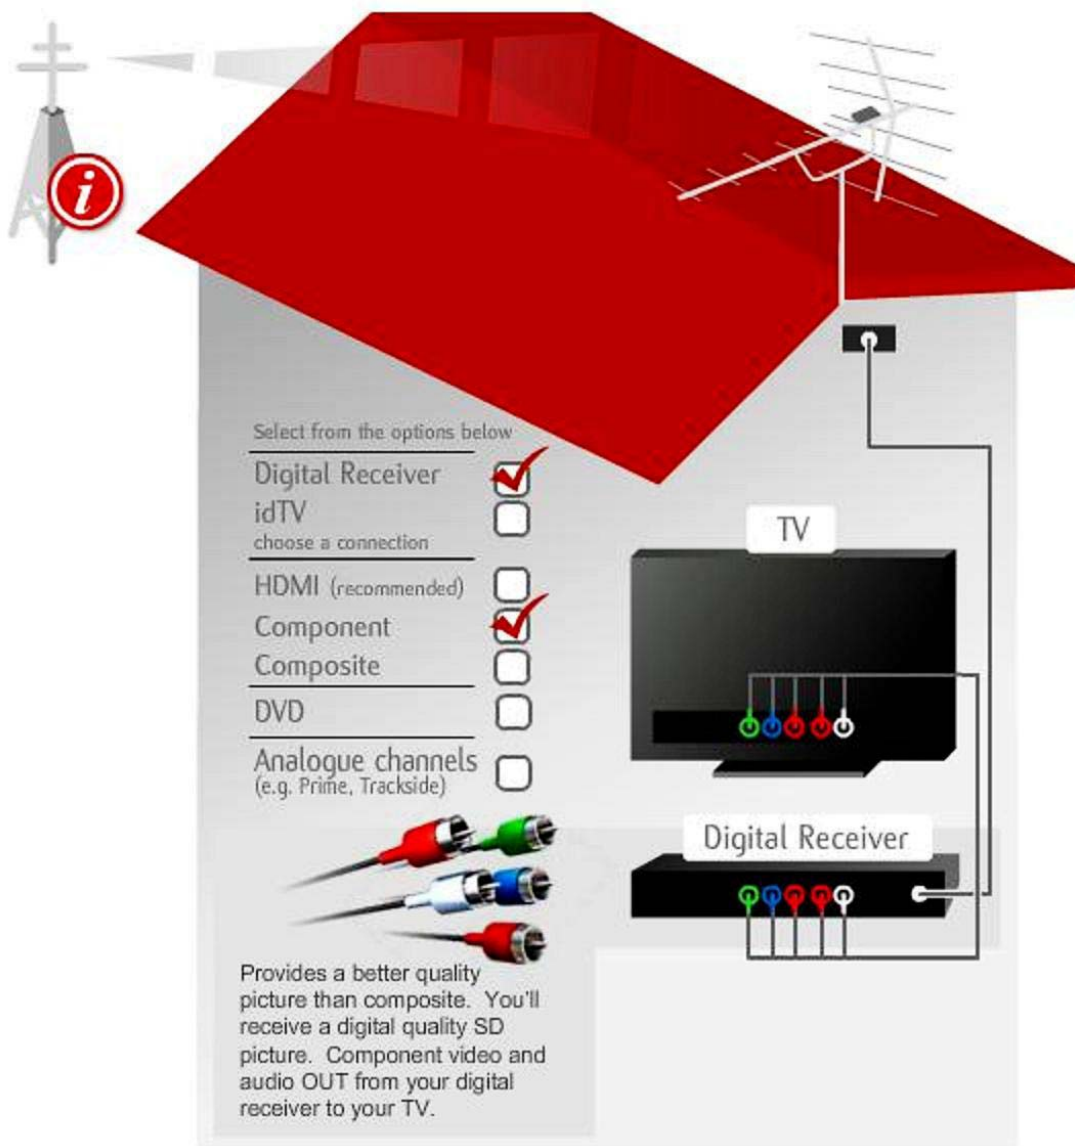

This is the recommended set up.

### Option 2: Composite

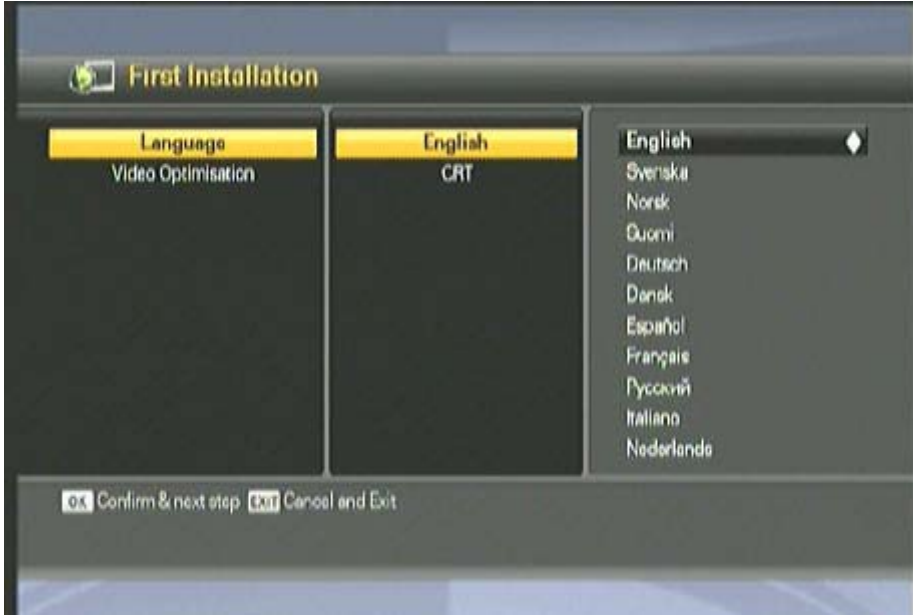

Option 3: Component

## Step 2: Initial Installation

Once the *Homecast HT9200* is connected, turn the power on. The receiver will take about 30 seconds to start up. The initial installation screen will show the following screen:

**Select Language by pressing OK**

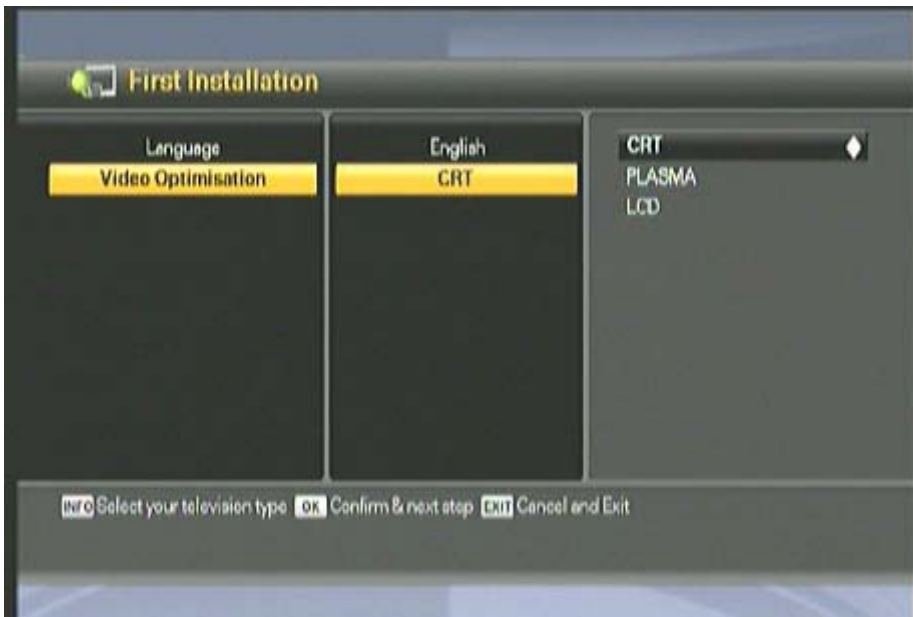

### Select TV Type

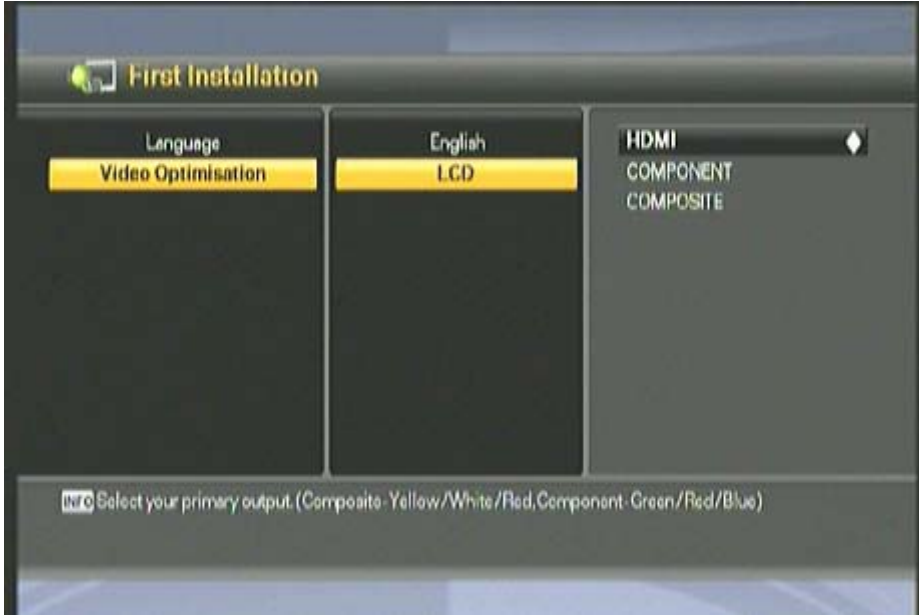

CRT (old-fashioned square TV)

Plasma

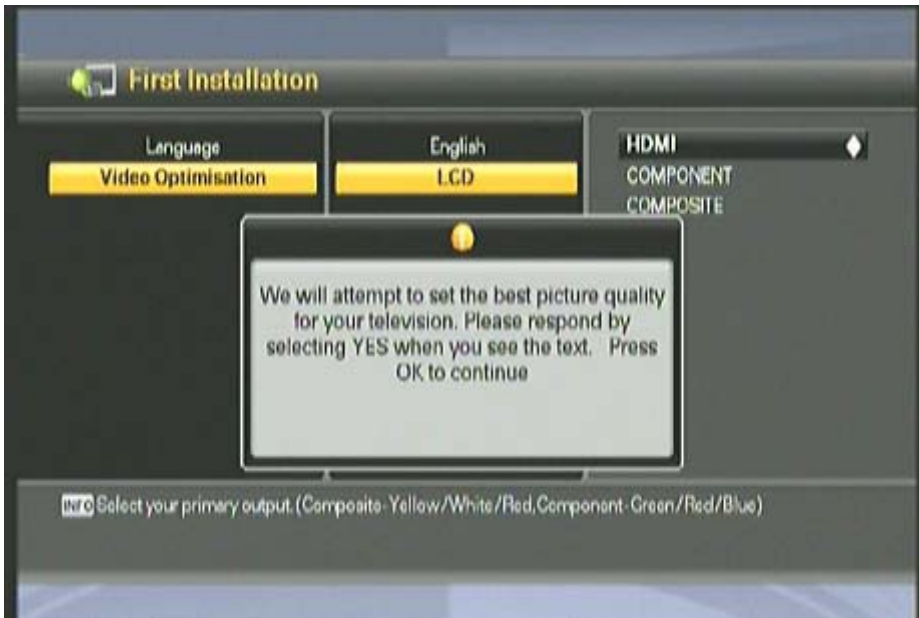

LCD

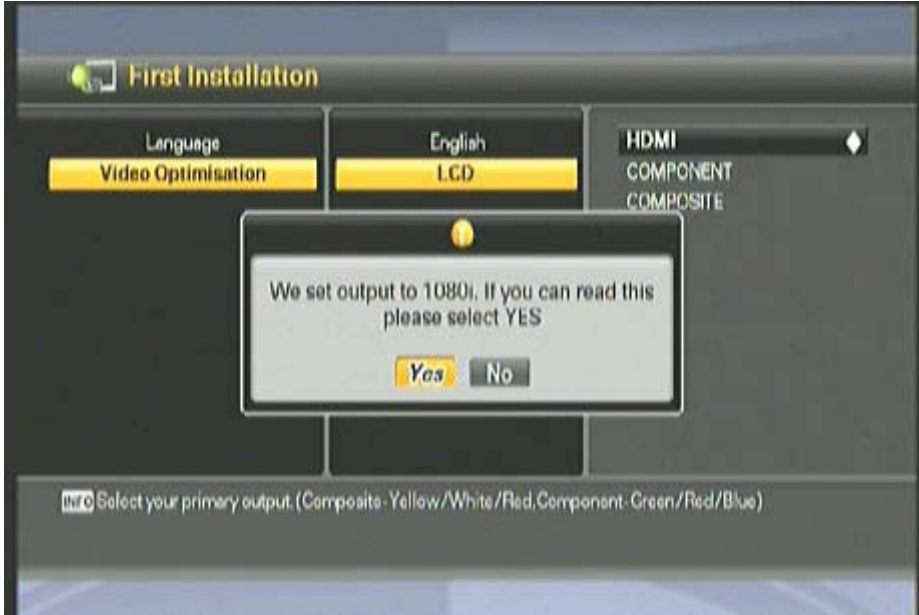

### Select Connection Type

#### HDMI for HD

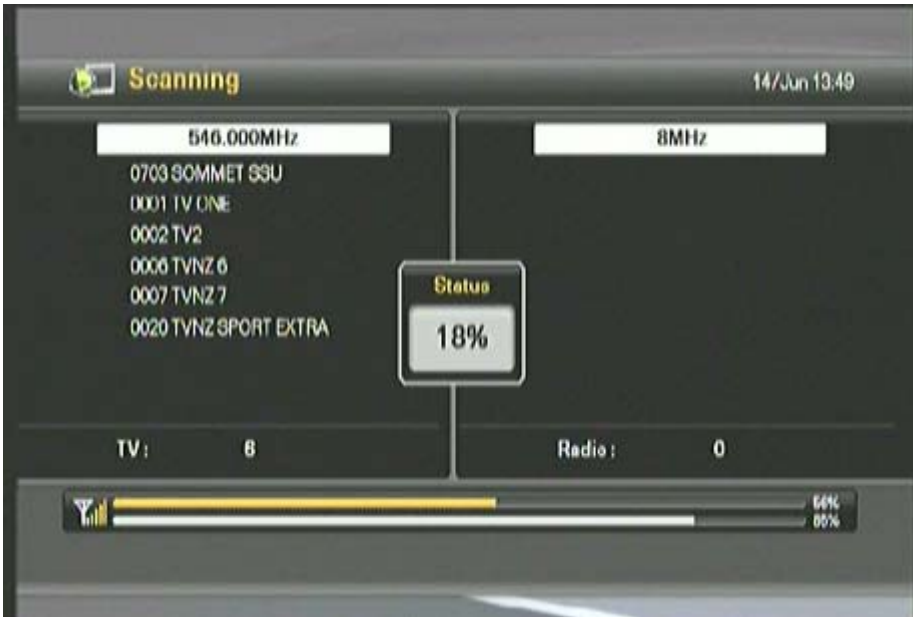

Press OK

Select Yes

Once you have done this it will automatically begin scanning for new channels:

Once scanning is complete you should be able to view all channels
